Are you AWARE?

Fish & Wildlife Natural Resources Police remind boaters to spring ahead of the upcoming National Association of State Boating Law Administrators' (NASBLA) Spring Aboard campaign for boating education by enrolling now in a boater safety course.

This year's Spring Aboard campaign will take place from March 17-23, with boating safety courses currently being offered. These courses cover the rules and regulations of Delaware's waterways, including appropriate speed limits, responsible boating skills and awareness, how to distinguish navigational aids and water depths, weather tips, information about basic engine mechanics, required and/or recommended safety equipment, what to do if a Fish & Wildlife Natural Resources Police officer stops your vessel, and the dangers of boating under the influence. Upon completing the course, boaters receive a boating safety certificate, which is required to operate motorized boats in Delaware for boaters born on or after Jan. 1, 1978.
